

# CONTINUING EDUCATION PROGRAM SPRING 2024

## YOU'RE INVITED

Join us for an IDS-exclusive continuing education program designed provide dentists with a blend of interactive lectures and hands-on learning exploring the latest in Endodontics. Throughout the day, industry experts will share evidence-based techniques and best practices to take your endo practice to the next-level.

## LEARNING OBJECTIVES

- Discuss the latest endo techniques, from start to finish.
- Discover new technology that can enhance patient safety and endodontic treatment efficacy.
- Review modern obturation techniques and bioceramic sealer case studies.
- Evaluate and restore teeth that have been structurally compromised.

3:00PM	Wrap Up & Departures

## OUR SPEAKERS

**Dr. Kevin W. Fryer**  
(Sponsored by Komet, USA)

*Dr. Fryer began his private practice in 1992 and has incorporated a lot of digital dentistry over the years. He believes that combining modern technology with old fashioned kindness ensures the most accurate, comfortable results for patients.*

*During the event, participants will have an opportunity to test out Komet's new endo line, including **EndoPilot**, a torque and speed controlled endodontic motor that can determine the real-time file position during treatment.*

**Dr. Priya Tirumalasetty, DDS, FAGD, AAACD**  
(Sponsored by Kettenbach)

*After graduating from the University of Michigan School of Dentistry, Dr. Setty established her own Chicago dental practice in 2000. Since then, Dr. Setty has gone on to become a Fellow of the Academy of General Dentistry, a Master of the Academy of General Dentistry, an Accredited Member of the American Academy of Cosmetic Dentistry (AACD), a graduate of the prestigious Kois Center and published an article about composite bonding in the Journal of Cosmetic Dentistry as well.*
